Positive Lock Pins are also known as ball lock pins, ball pins, double ball detent pins, push button pins, quick release pins, quick pins and hitch pins.

Positive Lock Pins have a push button that initiates ball action and retraction. Positive lock pin design combines secure fastening with quick release ease of removal. Double ball lock pin design increases retention capabilities. [Steel Lanyards](#) or [Nylon Lanyards](#) may be added as a low cost tether to prevent loss.

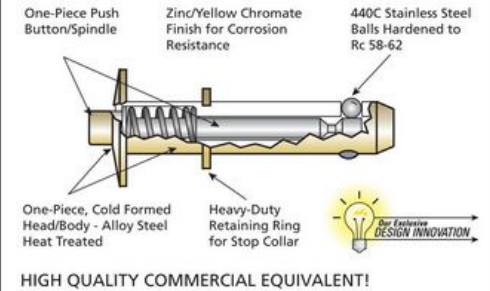

Pivot Point's Ball Lock Pin design features both a one-piece, cold formed body and spindle for increased durability.

Stocked in heat treated alloy steel for strength and durability. Standard finish is Zinc with yellow Chromate. Other finishes available.

Now available with optional T-Handle!

**NEW!** Added Security Options
