

Eyelets

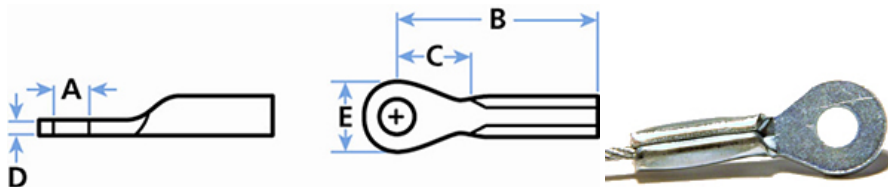

- [View Standard Items](#)
[Download PDF](#)
[Request Information / Quote](#)

Eyelets allow for mounting the lanyard end using screws, rivets or bolts/nuts. For proper selection, please note the mounting hole size (A). For greater freedom of movement of the lanyard, consider [Mounting Tabs](#).

Eyelets require specialized equipment for crimping.

Contact us for a quote on [Stock](#) or [Custom](#) Wire Rope Lanyard Assemblies using your choice of eyelets or other end terminals. We can also supply lanyards with eyelets bent to your desired angle.

Don't see the exact eyelet you need? Just let us know! Many other eyelet sizes/styles are available.
