Kickout Rings

Build Your Own

Download PDF

Kickout Cotter Rings are a type of Circle Cotter with a "kick-out" design that is made for speed and economy. Easily removable, this cotter can be installed fast by inserting the "kick-out" end into hole on pin or shaft and winding it through until it snaps into place. To remove, just start winding again.

This is a very secure cotter. Wound 1-3/4 coil, Kickout Cotter Rings are available in two sizes made from hard drawn MB spring wire, zinc plated or Stainless Steel (300 Series).

Other rings and cotters available from Pivot Point include Circle Cotters, Split Key Rings, Basic Rings, Bow-Tie Locking Cotters, Rue-Ring Locking Cotters and Hair Pin Cotters.
