

Mounting Tabs

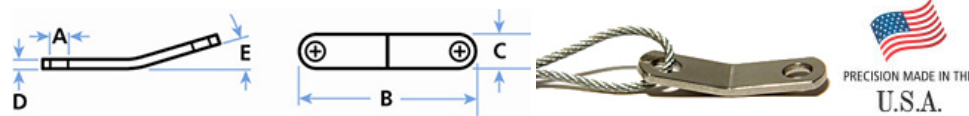

- [View Standard Items](#) [Download PDF](#) [Request Information / Quote](#)

Mounting Tabs allow for mounting the lanyard end using screws, rivets or bolts/nuts. For proper selection, please note the mounting hole size (A). Mounting Tabs allow for greater freedom of movement of the wire rope lanyard itself, compared to eyelets.

Contact us for a quote on [Stock](#) or [Custom](#) Wire Rope Lanyard Assemblies using loops and mounting tabs, as well as other end terminals.

Use our [Cable Cutter and Crimp Tool](#) when making your own looped assemblies.

* **TAB-62S-285** is teardrop shape.
