

Thimbles

- [View Standard Items](#) [Download PDF](#) [Request Information / Quote](#)

Thimbles are used in conjunction with lanyard loops to increase cable life by increasing wear resistance, as well as distributing the load on the cable over a larger area.

Contact us for a quote on [Stock](#) or [Custom](#) Wire Rope Lanyard Assemblies using loops and thimbles, as well as other end terminals.

Use our [Cable Cutter and Crimp Tool](#) when making your own looped assemblies.
